

Leak Sealer F4 Express 400ml

62438

- Seeks out and seals inaccessible, internal microscopic leaks fast
- Quick and convenient – doses in 30 seconds - no need to drain down the system
- Safe to use - does not cause blockages in pipework or vulnerable boiler components such as pumps, air vents and heat exchangers
- Non-toxic, environmentally friendly formulation, compressed air propellant and 100% recyclable can
- Saves time and money on draining down and repairing.
- Add via a radiator, filling loop or TF1 System Filter - all+L15+M15:M16+M14:M16+L+M12:M16

Leak Sealer F4 is a internal leak sealer developed for use throughout a central heating system to seal small, inaccessible leaks and weeps which may cause pressure loss and boiler breakdown. Once dispersed within the system, the product finds the area of oxygen ingress and forms a polymer to seal the pinhole. Effective within 1-24 hours after application, the unique sealing efficiency of this market-leading water treatment chemical has been proven to prevent blockages or restrictions within the boiler or vulnerable system components such as pumps and safety devices. A leak can be quickly and efficiently sealed, without the need for a complete system drain down. The Fernox Express range uses Barrier Pressure Pack technology and compressed air propellant to expel the product so the entire range is non-flammable. The propellant (compressed air) is not mixed with the active product so there is no risk of air ingress into the system which could accelerate future risk of corrosion.

Single Item

Height mm	218
Width mm	66
Depth mm	95
Weight kg	0.530
Barcode EAN	5014551624382

Outer Carton

Outer Height mm	241
Outer Width mm	178
Outer Depth mm	339
Outer Weight kg	5.560
OCU Barcode	5.01455E+12
Transit Type	Euro 1200 x 800
Units per carton	10
Cartons per layer	12
Total units per transit layer	120
Layers per transit type	5
Total units per transit type	600
